## Historic Marion Revitalization Association Tactical Urbanism Grant Program

Dear Building Owner/ Business Owner,

HMRA knows how difficult things have been the past few years. We have stayed up to date on the pulse of the town, state, and nation about how COVID has been affecting businesses everywhere. In January 2022, we took donations for a local relief fund to help our businesses who applied. We were able to distribute funding to help support your neighbors on Main Street! We have kept our eyes open for other money available and sent that out via email, text messages, and posted on our social media. We realize our support of you cannot stop there.

After some meeting of the minds, we have decided to develop another grant to help you with some flexibility in the ways we go about that. We are happy to introduce the Tactical Urbanism Grant Program. Tactical urbanism is, by definition, any low cost, temporary changes to an environment. The thought behind this process is any disruption to the "usual" environment or store front will attract attention. It is our hope that with new eyes upon your building, new customers will be attracted to you and stop in the business. So, what does this look like? Think outside the box! What can you do to improve the look of your store? It might be new potted plants, string lights, or outdoor seating. You might want a sandwich board for your business or new décor/decals for your window displays. HMRA would love to partner with you, but please note, funding is limited on this grant. Get some ideas, get a plan, and let's make it happen together!

Kelly Page Executive Director, HMRA
